Mr. William P. Ellis,

Swar Buore, Pt.

ay dear ir. Ellis:

The article entitled "The Perils of the Advanced Christian Life" was a address delivered at Northfild some five years ago. I think, and printed in the RECORD OF CHRISTIAN WORK. It was later out down and printed in the STURINT WORLD, the magazine of the World Student Pederation, and I think you could get a copy of the fuller address by writing to the RECORD OF CHRISTIAN WORK, Northfield, Mass. and of the souter article by writing to be. R.T.Anderson, 134 Rest 28th Street, dew York. I should be glad to send you a copy of it if I had one on head.

I hope that you have getter rested a bit after all the etrengueus camaigning which you have been patting in.

My door Wro. Miller!

Your kind note of February 22nd has been received.

It would be a pleasure to come to take part in the Lenten Services

if I could have to get the time for it, but I have already more than

i can have to accomplish in the work that waits to be done day by

day, and I expect to go to South America the first week in May,

which means that a great many things that otherwise would go over into

the Spring or Summer must be done within the next two months, so that

I shall have to refrain from making any more engagements and shall have

difficulty in filling those which I have made.

I hope you may have a good series of meetings, and with kind regards to Mr. Miller and yourself, I am

My dear Charlie:

I enclose, rerewith, another of the articles in the Paul series. I have written the remaining articles of the series and shall home to send them to you shortly. Some of them I fear now 'e too long, just as the earlier ones were, but in that ease I hope you will not hemitate to out out as many paragraphs as may be necessary to bring them within the proper limits.

I enclose, also, the Young Psoule's column for the first four Lundays in May, and shall lope to send you, within a few days, the remaining copy for the first six months of the year. It is unactically settled now that I must go to South America early in May, so that if you want me to carry the Young Psoule's Meetings beyond the six months, it will be necessary for me to consider at once whether I could get the material ready before going. This might be a good department from the paper, or it may be that it would be to the advantage of the paper to have someone else provide this column. If, however, you want me to consider going on with it, I shall have to do that at once, in view of my long shaence. I don't know whether I could be sure of getting all the work done before leaving.

I shall try to look over the booklet on "low to break made to be made

communications from the former resarding other forms of inventment than the Stony Brook Association, but have never given

any attention to them. The Association has among its officers
and managers many thoroughly trustworthy men, and I am venturing

to rend your letter to Dr. Stevenson, whose name I notice on

the Board, with the request that he answer it. You can trust

nurreservedly whatever Dr. Stevenson may say, has to the Sterling

My dear Mr. Durrie:

Your interesting letter of February 24th has been received, and I trust the way may be opened for you to sent your boy to Prince-ton, as you desire.

I was on the point of saying that I would forward your letter
to the Chairman of the Committee of our Church charged with the daty
of finding a new poster. Int on second thought, I do not think that
would be calleful to you, because I am quite sure the Committee would
not consider any application for the pastorate. If you could get

Dr. Stevenson to write a strong and unqualified letter to

In Prederick D. Tobenck, Inherty Estimal Dank, New York Chairman
of our Church Committee, stating that he believed that you were just
the man for our Church, and if Dr. Willis of Brooklym and Dr. McWillen,
formerly of the Youe Spard could write in the same way, I think Mr. Scherck
would bring the matter before the Committee.

This matter of suiting a Church to a pastor and a pastor to a Church is as delicate and masterious as marriage, and I have come to the conclusion that the only really successful arrangements of this sort must be made where the marriages are made, namely, higher than earth.

Dr. Atterbury has suggested that you might be willing to weitr down some of your reminiscence and judgments of George Bown, Ur. Atterbury may have told you of my great interest in Bowen, and my purpose some day to write a biography. With this in view, I have lean rethering material for some years, and have in hand the best collection of relevial that there is, Bishop McDonald, who inherited Centure flower to tempore, leving commend them over to me, and a great many letters having been supplied by friends. I have been especially majous, though, to set personal reminiscences, and especially satured expressions of judgment as to Nowen's personality and character and itiluence, from those who knew him personally. Would you not be willing to melp out of your invaluable knowledge of him I I should be very grateful if you could do so, jotting down from time to time what occurs to you, and forwarding it as you jot it down, or accumulating it and sending it on together.

By Gear Mr. Bosts-

As you know, our church in Englewood, N. J., is now without a pastor.

Among the names that we have thought of as possibilities is that of the Rev. W. P. Marrill, of Chicago. Do you think that he would be just the right man for us? We have one of the alcost auburhan churches around New York, of a membership of between five and six bundred, in a community of six or seven thousand, which has also mnother Presbyterian Church, reaching the people of moderate means, while our church would be regarded as the wealthy church of the community; and also Episcopal, Methodist, Roman Catholic, and Datch Reformed Charches. I have never seen a nicer community than ours. There is a great deal of confortable wealth without any splurge or foolish display. It is a community where an indolent minister would doubtless be glad to come, but it is not wanting an indolent minister. We want some one who can take hold of young people, that is attractive in his postoral work, who can reach men of all classes without compromising his principles or making use of habits which are beneath the minister. We want a man who is a good preacher, but who preaches because he is a minister of men's souls, and who is not in the ministry simply to preach. We would rather have a man of about forty, if we could get him. Could you unreservedly recommend in Marrill AS OUR PRANTY Very condictly yours.

My dear Mother:-

Your good letter regarding the Episcopal minister from Jamestown has been received.

Episcopal Church, without any experience in our own, although, if he were just the right man. I don't know that any of them would be prejudiced on this account. Our Episcopal rector here, who is very well liked in the community, is the son of a Presbyterian minister, and, I think, went to Princeton Seminary. If we could get as good a man back from the Episcopal Church as he is, I think all would be satisfied.

At the meeting of the Board yesterday, "It was voted that in fulfillment of the assurances given by the Board to the Missions in South America with reference to a Secretarial visitation, Mr. Speer be instructed to proceed in May to visit the Missions in Brasil and Chili, and, if possible, the Barranquilla Station of the Colombia Mission, spending, approximately, two months in Brasil and one month in Chili, and returning to theoffices in October." I am planning, accordingly, to sail on May 5th. It isn't nice to think of the longabsence, but I am comforted by what Elliott said in his prayer last evening—"God bless Father. We know it was Thy decision that he should go and visit South America." Then he prayed earnestly that I might succeed in getting safely to Yale next Sunday. I think he had a feeling that the hardship of visiting Tale

I appreciate very much your kindness in sending me the issue of "The Cumberland Presbyterian" for February 25th, containing the report of the Birmingham Convention. I was very glad to have the opportunity of seeing the Convention. Such a meeting must surely have a great effect on the men of the Southern Presbyterian Churches, and the unity of such a gathering must surely influence the men of both Churches.

the dear the flohenoist - 1 mail

In addition to the letters which I gave you last evening. I have the following letter from a friend in reply to an inquiry of mine regarding Mr. Richards of Newport. My friend writes:

"With regard to your questions about Mr. Richards, I am sorry he be weent sfectory. I do not feel, however, that I know him well enough to make in fair for me to sessor them all. There is certainly no question as to his earnestness, conscientionsness, nor gentlemanliness; and he is much liked by his own people. You say you 'should be very prestabil for a frank expression' of my 'indement regarding him.' If you wish me to, I will give such an expression; but I hesitate to do so lest it might be prejudiced and not based on sufficient knowledge. The congregationalists have mover gotten over what seems to me an unreasonably sore feeling at the establishment of our Presbyterian Church in Mempert about twenty years ago. Mr. Michards has taken upthe grudge, and shown an attitude the reverse of friendly to our Church .- an attitude which it is har's to understand, and quite the opposite of his attitude toward the Unitarian Church. Mr.R. May have been misrepresented, and he may be'the man' for Englewood. I don't know."

I have a letter from another friend regarding ir. Sawtelle.

He writes:

"I know Sawtelle very well. We met frequently during my time in Syracuse. He is big in body and heart, a genial companion bubbling over with good nature. It is safe to say that he was by far the most romalar man in Syraouse Presbytery all the years I served in that body. I heard him preach once; it was good, sensible preaching, with nothing unusual or exceptional about it. I never heard that he was unusually strong in the pulpit? I know nothing of his pastoral work in detail. Meet excellent reports were given me by some strong people in his Rulton Sharoh. I judge Sawtelle to be a manly, straightforward Presbyterian minister of excellent but not extraordinary ability, whose personality will enable him to have friends anywhere he is known. I should expect him to do well in such a church as you demoribe Englewood to be, though he might not 'take them by storm' at first. Park Church, Syramuse, heard him and it was said he wanted to go there, but they did not call Dunanuel Church, Milwaukee, wro. . to me as you have, and on my anthusiastic endorsement came on to Fritan to lear him, intimating that

WALL DUSSING WOLLD

they would call bim, but for some reason unknown to mo the matter dropped. But I last looked him up for some Brooklyn work and I assured him and I superfectives, but it failed. These things have guzzled me and I have chought there might be something which I did not know. To you, therefore, I have written very moderately, understating ather than overstating my opinion. Fersonally, I believe Sawtelle would do fine work in Englewood Church."

Hearitt. Dr. Nolson, of Park Presbyterian Church, Minneapolis, and Dr. Berridge of Ottawa, I don't know, but I am making inquiries regarding them and shall send you the results.

I have written to Mr. Williams, quoting your kind letter of Jamuary 27th regarding him use in our Spanish religious paper in Mexico of the Young Feogle's leason articles from "The Sanday School Times," and am sending him carbons of the lessons which I am sending you. Could you not send him however, galley proofs of the April topics if it is not too late? His address is, The Rev. C. Scott Williams,

Apartado 104, San Inia Potosi, Mexico.

I have told him that I have raised the question with you as to whether you wished the topics continued after the end of June, and that, if you did, I would be glad to send him carbon copies for the rest of the year, in case I could get them prepared, but that if not, he would have to prepare his material otherwise.

My desig Spottier-

I have delayed answering your note of January 9th in regard to the Christian Endeavor column in "El Faro" until I could communicate with "The Sunday School Times", and also see what I could do myself.

[Br.Tranbull writes, in reply to my letter, as follows:

"I thank you for your good letter of January 21. We are, of course, glad to give our very cordial parmission to your correspondent, the New.C. Scott Williams, to translate and publish in the Spanish religious paper your Young People's lesson articles from The Sunday School Times. It seems to me that the safest way to get them to him early would be for your stenographer to do as you suggest, and make a carbon copy, mailing those copies direct from your office to Nr.Williams.

If there is any objection to doing this, or any special difficulty in the way, we shall gladly send proofs of the articles to him when they are in type. But this might sometimes delay the matter a little.

Will you just ask him to be so kind as to see that the following form of credit is used with every appearance of an article:

'Copyright, 1969, by The Sunday School Times Company, and re-

This will perhaps keep some unscrupulous American publishers from translating back again into American, and getting the bonefit of your articles in an unauthorised way."

In accordance with this suppostion, I am sending you herewith carbon copies of the material for May meetings, and shall send you henceforth other material as it is prepared. I am asking Mr. Trumbull whether he cannot send you the galley proofs for April. It is too late to do supthing with the hirsh meetings.

" In accordance with this action, I me expecting to sail for Brasil, if nothing prevents, on May 5th. I have written to Mr. Trambull as to whether he wishes me to furnish the topics beyond the end of June, as our arrangements have hitherto been on the six months basis and the present six months expires at that time. If he says "yes," I shall then have to write up the topics for all the rest of the year in the next month or so, and in that case can easily furnish you with the material until the end of December. If he says "no," then I shall of course discontinue, so that my material would not be available for "El Pero."

My dear Mr. Leon-

I have delayed ensuring your last kind note of Pebrasry 18th until after the Board Meeting on Monday, as the question was then to be faciled of my going to South America this year. At that meeting, I was instructed to leave an early as possible in May, to visit our Missions in Branil and Chili, and, if presticable, in Colombia, and I as planning, accordingly, to leave the first week in May.

This, I fear, will make it impossible for me to take an any additional engagements and to get the evenings which I had hoped to have for the lectures in Correntown, which it would have been a real pleasure to deliver. I shall need the time for the things that reast be done before I can get may, so that I must give up for this spring the pleasure which it would have been to come over for this course.

Mr. Eddy was a conior when I was a frequence in Princeton College. He was graduated at the head of his class in college and held the same place in his class in the seminary. He then studied abroad, I think on a Fellowship, and since them has held pretorates in Beverly, N.J., St.Louis, Mo., and Huntington, Long Island. In St.Louis, he was assistant to Dr. James H. Parks, one of the best known Presbyterian ministers in the West. Mr. Eddy is a true man and a scholar, a lover and prescher and, I believe, a liver of the gospel. My dear Will:

I have been looking for you on the trains lately but have got no glimpse of you at all. I wanted to tell you about a trip which I shall have to take this Summer down to South America to visit our Missions in Prazil and Chili and Colombia. I expect to sail on May 5th, returning the latter part of ctober. A cousin of Emma's, — a graduate of Princeton and a fine young fellow, who is now studying medicine in the University of Pennsylvania — is coming with me. Emma and the children are staying home, going for the Summer to Englesmere, Pennsylvania, where Mrs. Bailey and two of Emma's brothers and their families are accustomed to spend the Summer.

I expect to spend two months in Brazil and them go on down to the Argentine, and either across the mountains to Chili or around by the Straits, spending a month in Chili and coming back by way of Barranquilla and the Republic of Colombia.

I was down in Baltimore a few weeks ago and had a nice call on Mrs. Post.

I am very sorry I missed you the other day when you called.

I wish you had sent in word and I would have come out. I do wish that on some one of these visits down you could allow time enough to come out and spend a night in Englewood. Do this within the next five or six weeks if you can, because I am going off the first week in May to be gone six months in South America, visiting the Missions in Brazil and Chili and Colombia. I expect to get back the end of October. Emma and the children will remain at home, spending the Summer at Englessmere, where Emma's mother and two of her brothers go with their families.

Tr. Joseph W. Cook,

Pottstown, PA.

My dear Joe:

I am delighted to learn from your letter that everything is arranged so that you can get off with me on the 5th. I have engaged passage, and they have given us what they say is the best cabin on the boat, though they have some state rooms on the upper deck which cost \$25, extra per individual. I thought you wouldn't care for this, however, and my own principle is to travel the same way the missionaries travel.

het me know any time that you could come over to spend a night. I am getting all the points I can on the matter of outfit, but they do not amount to very much. Apparently one had better go prepared for every kind of weather and temperature, and yet undoubtedly most of the time it will be warm.

My dear Mrs. Could:

Your letter of March 19th has been duly received.

I do not wonder that your mind has turned to the questions which you ask, and I wish I could throw light upon them, but I fear I cannot.

You sak, first, where, in case the clothes which had been about the body of Jesus had been left behind in the tomb- did he get the clothes which he were when Many talked with him. I cannot say, Where did he get the fish and the bread and the fire referred to in John 21:9? I don't know whether these or the clothes were miraculously emplied or not, but I believe they were.

You ask, secondly, what became of Christ's body when He was carried up into Heaven. I think the body in which Christ was carried up was, or became, His purely spiritual body.

is a mystery to me. It seems to have been a body with flesh and blood, and yet it appeared and disappeared and passed through solid walks. It could be touched and identified, and yet it ascended into Heaven. The know nothing about it except what we learn of it through the Gospels and I am centent to take those statements as true and wait for their full understanding until God's own time.

My dear Mr. Schencks

After one of our recent Committee Meetings, at which the mame of Mr. Stocking of Newtonville was proposed, I wrote to a friend in Boston, a prominent Congregational minister, asking about Mr. Stocking and received the following reply:

ville and is, so far as I know, universally liked. He is a good organizer and preacher and is getting his c hurch together in a wonderful way. I asked one of the members, soon after receiving your letter, about him, and he at once - suspecting that it was in the interests of some church - replied, 'You musta't come near Newtonville. We cannot let our pastor go,' and would not say anything about Mr. Stocking except to protest against any enquiries being made. From all that I can learn that is the attitude of the Newtonville people.

In regard to his theological standing, as to whether he is a latitudinarian or not I cannot speak so freely. I have never heard him speak. I imagine he would not be called a conservative, certainly not old school, and yet I should regard him as moderately liberal, standing perhaps on an intermediate ground, not emphasizing the Liberal side in his preaching or in Biblical exposition, but aiming at the practical.

Since writing the above another member of Er. Stocking's church has been in, and he tells me that Er. Stocking is considered to be very liberal in theology, a more so, I should judge, than I have suggested above. My judgment the refere would be that he would hardly meet the requirements of the church in Englawood,

I have also several letters regarding Mr. Potter, but I judge you will not care for theme.

By dear Mr. Sopties

I have delayed writing to you with reference to the publication of the address on "The Delty of Christ" until I could revise the report and determine just what use to make of it.

In addition to your kind note, two of our publishers here wish to get out the address, and I concluded to give it to Revell, who has published almost all my other books. He is issuing it as a small book, and I think I shall later combine it with some other addresses, and publish it in a larger volume. As Revell will want to issue this on both sides, I think perhaps I had better not think of asking you to issue it in the same form as "The Value of Mardness."

I shall be very place if at some other time, in the near future, you care to put out my other little book of mine.

Vory cordially yours,

resitive convictions, is the contention that what we think is of no importance. - that what we do is what really matters. We forget that we do what we do because we are what we are; that our character lies back of our conduct, and that we are what we are because we think what we think; that are convictions lie back of our characters. All that really does matter is what we truly think. In the end, at Mr. Chesterton which says in the words of Professor James makes the text of his last lectures, the only thing that counts is our real philosophy of life. That was why the greatest of all teachers, the only teacher who ever dared to identify true religion with personal loyalty to Him and Himself with God, was wont to ask "That think ye of Me?"

. . . . . . . . . .

I fear that what I have written is too long, and I hope that if it is you will feel entirely free to key it aside or to shorten it, or to let me know if you want something entirely different.

Very cordially yours.

My door John: -

Your good note is just received.

Erms and I will be there if it is possible. And If we are there, unless Duma feels that she must come home the same evening. I shall of course be delighted to help in the prayer meeting. These are terribly busy days for me, however. I am leaving for Canada to-night and shall not get back to Duglewood until Saturday afternoon; and that particular week of Korane's wedding I have engagements for the evenings of the 9th, 10th, 11th, 12th, and probably the 15th, just at the time when I have been planning to have as tauch time at home as possible, in order to see Erms and the children a little bit before going off to South America. I find myself loaded up more than ever with appointments. But Horace does not get married every year, and we must certainly be there if we can. Either Erms or I will write as soon as we know definitely.

I think Descan is getting along very well. I saw him on Saturday for a little while. I think as the spring cames on, however, he will find it increasingly hard to stick at his present work, and I believe it would be a very good thing 'f he could get out of the city and into the country. If you see Horace, I wish you would speak to him of the possibility of his getting something in Pottstown, in the Chadwick factory.

Mr.Stons-2.

I shall write to Horaca about it, also. I have lots of friends in Pottstown who would take a warm interest in the Descou, if he could get work over there.

My fear Mr. Musealls-

I have been very much interested in a men from Northern Faw Campshire, whom I met first some years ago in a lumber comp when trout fighting up in the Thite Mountains. He was the son of a Reptist minister in laine and had come off to the woods to get away from the temptablem of dring. Once or twice a year, however, he would get out of the woods and squander all his money and then come back again. Fe was a very intelligent, capable fellow, and Ir. Stone, of Baltimore, and I were very much drawn to him. Last numer I think he was really converted in one of the Sunday meetings at our camp, and when we came down to low Tork in the fall, he came with us; and after a month at Chester Crest, a Christian home just outside of New York City; intended for such men, we got him a place in an are the le school in New York, and then a job in a garage after he had finished his chaffeur's course. Everything was going finely, but about Christmas time he tripped up again. He came back once more, however, and had been working since in one of the best shoe-stores in the disy.

He ought really to have work, however, that would take him out of doors more, and I want to get a job for him some place where he will have Christian friends round about him. If I were In Marwall-2.

where he is, although even then I think it would be better for him to have other work, as he is at present toiling in a banement, where the confinement is hard on one who has been accustomed to live in the freedom of the woods. But I am going to South America for six months, and an anxious, accordingly, to get him out of New York and into some town where he would have work at the name time that he would have yood friends. There is splendid character in him, and I believe confidently in him and his future.

him any kind of a job in Pottstown and take a fatherly interest in him. If he could get work at the Chadwick automobile factory, or in any other good line that would keep him moving about and then if you and some of the other friends could close in around him, to encourage him, I believe it will be a good work. Could you do anything for him-anything in the way of getting him over and giving a little money to start with, I should be glad to arrange for.

I expect to leave in two means, and shall be very glad if you could let me hear from you need. I don't think you need four at all to take hold of the matter. I should not hasitate a bit if I had any work of my one in which I could employ him.

I was glad to get your letter of April 16th, and wish I might be of some help to you. If you could put an advertisement in "The Antlook" of what you propose, I should think that would be the best way of reaching a large constituency. A circular tacked up in the Mission House, I think, would not reach very many people. We have one or two notice boards where it could be tacked up, if you wish, but I think an advertisement in "The Outlook" would be such the most effective thing that you could do. Perhaps a note in "The Observer" would help also. I shall be glad to speak about the matter to one or two people, to see if they can be of any assistance.

Dear Mrs. Orr:-

I should think that probably Dr. William Newton
Clarke's "Ban I believe in God the Father" would be a good book to put
in the bands of the student of whom you write. So much depends on the
constine type of mind that one hesitates to recommend a book where one
is ignorant of the person, but I should think that the book I have suggested would be the right one.

My dear John: -

He is all right as a preacher and as a man, and, for most of the people, as a paster. His limitations would be on the side of his culture.

You know his bounded and his education. I think these limitations have probably been so overcome that in almost any church he would be entirely at home with all the people. He is a thorough gentleman, in the truest sense, but he has not had the discipline or experience.

I judge, which has given him a taste for the kind of people with whom a good deal of your work has been done.

Mrs. McDowell, I judge, has had a little less contact of this sort then in McDowell has, although she is a very genuine and pleasant woman. I don't think that you could do better than get him for your Church, woulded you think he end ins. McDowell ar qualified on the social side. I have the introduction of this element at all, because it is purely artificial. Intellectually and spiritually and personally.

Mr. McDowell is thereughly suitable, and I don't know that there is anything in the qualifications I suggest at all. I only mean that they have been used to a little plainer manner of things than your Church has been accustomed to, but they are thoroughly true.

of the Theological Seminary. I think it is better for a man to be trained in one of the Seminaries of his own Church, as a rule, or to take at least part of his training in one. I would not be diverted, if I were you, from any one Seminary which I had intended to enter by presente brought to beer in favor of other Seminaries. If the Seminary to which you propose to go suits you, I would go on there. If it does not suit you, then, if I were you, I would got full information regarding the different Seminaries which you would wish to consider, and would then decide the question in the light of the information that you get.

You do not mention becomisk and Auburn, both of which are good Seminaries and well worth your consideration. If you want to go to a New England Seminary, then I think Fartford, which you mention, would be the best one to choose. The Presbyterian Seminary which perhaps most nearly approximates Harvard in its general spirit and attitude, is auburn, although Auburn has not made such a specialty of Foreign Hissionary studies as Martford has sought to do.

I think that more will depend on you than the Seminary. in any case. No one of them, from my point of view, is ideal, but any one

My done Wante-

I was sorry not to have seen more of on last Saturday, but Elliott wanted to monopolize all your spare time.

I hope that things are going better this term. There will mubiless be a great deal all around you that you won't like. One finds that every place, but what one cannot change he must simply ignore, however much it may fret him to be in contact with what he cannot approve. You will find life outside to be just a larger kind of school, without so very much more freedom of choice of companions and with just the same necessary collision with much that one opposes.

I hope you won't think that I was not ay mathetic with the fill making as you felt them, and please don't think for a moment that I doubted a word that you said. All that I ment to try to help you to feel was, that there are a lot of these things that one cannot change, and that one must therefore, while doing his best always to make things better, just pass by. Some of them he can pass by contemptionally others pitingly; but the main thing is to get out of one's self, and not to estimate things or men according as they relate themselves to one's self. Our business is to welcome what good we find as we so clone, to let people feel clearly what we till his or the evil that we meet so we had people feel clearly what we till his or the evil that we meet so we

I hope you will not let yourself get into the pay of thindry
too much of what is all around one that is not as it ought to he; and
that you will make others and work for others and the lives of ethers,
nevertheless, your chief end and consern. I know it is hard to make
this combination, but the secret of life is found in making it, and
your meafulness and success in the future will depend as your making it
now, on your entering into other people's interests and being strong
with the strength which comes alone from self-'orgetful work and play
with others.

what you have done for Descon has been a good thing for him and a good thing for you, and one maybe to be working with hearty interest always in other men's lives just in that way, and I hope that that is what you may be able to do, that your life may be a great strength and help to many.

My dear br. Maxwell:

I am very much obliged for your good letter, which was just like you in its friendly helpfulness. I hope that something can be arranged for the young man of whom I wrote. He knows horses well, and will be glad to get any job at all. As for pay, he has no one dependent on him, he is unmarried, but he wants to earn enough to support himself and to pay back some money which was advanced to him, not in the nature of a loan, but which he wishes to regard as such. His address is Charles H. Cahill, % Mr. Perrault, 143 West 16th St., N.Y.C. will be sailing for South America next Wednesday, and perhaps if you can find anything for Mr. Cahill it will be better if you will write directly to him.

Tours of the 24th inst to hand. In Special booms on a only to worth America and will not return for about eix months.

If you will allow a thought or two from me on the subject of your letter, I may say that John 1:9-15 shows that men are inexcusable for rejecting the truth, also what they lose if they do reject it, and what they attain if they accept it. If course, I take it that leans Christ is the personification of all truth. Pilate and Judas and the whole levish nation are Joriytural examples of the result of rejecting the truth, and over scainst them on the other side, may be placed Feter and John and Paul and those who were then called Sentiles, but who now make up the christian world. A comperison of the conditions existing in heather lands with those in Christian lands shows the difference and the largest that follow the susceptance of the truth. Midway between are the Latin races, the Shaw, etc., who have only direct comprehended the truth, so that their growth and development have been stunted.

You have a broad subject, and there is much to said in regard to it. I trust that your meeting may be successful, and that your study or this subject may be very helpful to you.

by dear Dr. Hetlure:

I have just sent you a telegraph message in response to your letter of September 23rd, addressed to Mr. Speer, inviting him to

Missions in South America, and we are not expecting him to return until the latter part of October. Of course, there is nothing very definite about the date of his return, and it may be that he will not get back until the first week in November, but at any rate, you will have to make your plans in advance for the speakers you are to have end that will necessitate your climinating Mr. Speer's make from the programme. We cannot reach him at any mail address at this date, and of course cannot make angagerents for him.

I am very sorry indeed that Mr. Speer is not to be with you, end thust that you may have no difficulty in securing another speaker.

I shall not your letter where Mr. Speer will see it immediately upon his return, when his will reply to your enquiry with reference to the course on the John 9. Converse foundation of McCormick Seminary.

Very cordially yours.

Secretary to Mr. Speer.

My dear Sir;

Your letter of September 24th, addressed to Ar. Speer,

I am exceedingly sorry to cause you disappointment again in the matter of securing Mr. Speer as a speaker at your Young People's Missionary Rally in December. Mr. Speer is at present in South America and will not be back until the end of October. We are holding many invitations to him for addresses which he will have to decide upon after his return, and I am unable to say whether he can comply with your request or not. I will place your letter on file for his our request or not. I will place your letter on file for his our waste, but would suggest that you write to him again early in November, in case you feel like holding yourself in a state of uncertainty so long.

In the hope that you may be able to get him and the benefit of his strong appeal for Missions in your city, I remain

Very sincerely yours.

I can only repeat what I replied to a similar letter from Dr. Mershaw. — that I shall hold your request here until Mr. Speer's return, the latter part of this month, and any next that you communicate with him again say in Movember. I do sincerely hope that he may be able to do as you request, but in view of his long absence from New York, and the fact that he will be going to Scotland in Jamary and February, there is a likelihood that he may have to disappoint you. He will be able to answer you definitely, however, when he returns.
